

MD-GRID CA Certification Authority inauguration event and grid security training workshop

An inauguration event of MD-Grid CA Certification Authority and grid security training workshop was jointly organized in Chisinau by RENAM and MD-Grid NGI on April 3, 2009. The event was held in premises of Center for Graduate, post-Graduate Education and Advanced Training of the Academy of Sciences of Moldova and was dedicated to train national grid infrastructure users, and especially those activating in the framework of SEE-GRID-SCI project. New National Certification Authority structure and functions were presented and explained. Structure and usage of new web site - ca.grid.md were also explained. The training was focused on general grid security concepts and aspects together with practical procedures of grid certification. The welcome speeches were made by acad. A.Andries - RENAM General Director, I.Cojocar - Director of the Information Society Development Institute and Dr. C.Gudima - Institute of Applied Physics of ASM. Presentations and practices on National Grid Infrastructure, its security aspects, users certification procedures were made by RENAM's specialists: V.Sidorenco, V.Pocotilenco and A.Altuhov. The event was attended by about 20 scientists, teachers and students. Photo gallery from the event.
